1. The following is an examiner's statement of reasons for allowance: Independent claim 1 uniquely requires "noise filtering ... at least one first pixel location."

Independent claims 10, 15, 19, 23, 26, 28, 31 require limitations which are similar to those of claim 1. None of the prior art whether taken singly or in combination discloses such claim limitations.

De Haan et al, Trifonov et al and Watanabe et al are cited for disclosing the state of the art of image noise reduction. These references fail to disclose the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
